Sakshi Shirole

FULL STACK DEVELOPER | PHP DEVELOPER | CODEIGNITER 4 | MYSQL | MERN STACK

Nashik, Maharashtra, India | +91 9373789718 | sakshibshirole@gmail.com | LinkedIn | GitHub

PROFESSIONAL SUMMARY

M.Sc. Computer Science graduate and Full Stack / PHP Developer with a 6-month Web Developer internship building database-driven web applications using PHP, CodeIgniter 4, MySQL, JavaScript, HTML5, CSS3 and WordPress. Experienced in REST API integration (OpenAI, Google PageSpeed, GitHub), debugging, testing, deployment and hosting on cPanel and Hostinger, and Git/GitHub workflows. Built RepoLens, a full-stack MERN application (React.js, Node.js, Express.js, MongoDB) deployed on Vercel and Render. Co-inventor of a published patent application and author of a peer-reviewed journal paper.

TECHNICAL SKILLS

Backend: PHP, CodeIgniter 4, Core PHP, Node.js, Express.js, RESTful APIs, REST API Integration, MVC Architecture
Frontend: React.js, JavaScript, HTML5, CSS3, Bootstrap, Axios, Responsive Web Design
Databases & APIs: MySQL, MongoDB, phpMyAdmin, GitHub API, OpenAI API, Google PageSpeed API
CMS & SEO: WordPress, Technical SEO, Website Optimization
Tools & Deployment: Git, GitHub, cPanel, Hostinger, Vercel, Render, XAMPP
Practices: Full Stack Development, Web Application Development, Debugging, Application Testing, Website Maintenance, Production Deployment

PROFESSIONAL EXPERIENCE

Web Developer Intern | CodingBit IT Solutions, Nashik | 01/01/2026 – 30/06/2026 (6 months)

- Developed and maintained database-driven web applications using PHP, CodeIgniter 4 and MySQL.
- Integrated REST and external APIs, including OpenAI API and Google PageSpeed API.
- Debugged and tested application functionality; fixed identified issues across development stages.
- Maintained and updated live client websites, including WordPress sites; implemented website optimization and technical SEO improvements.
- Deployed websites using cPanel and Hostinger; managed source code with Git and GitHub.

INTERNSHIP PROJECT

SEOBIT – AI-Powered SEO Analysis Platform | Repository

6-month internship project, CodingBit IT Solutions | PHP, CodeIgniter 4, MySQL, HTML5, CSS3, JavaScript, OpenAI API, Google PageSpeed API, Git/GitHub, Hostinger

- Built a platform for website URL analysis, website and sitemap crawling, on-page SEO auditing, SEO scoring and crawl history backed by MySQL.
- Integrated Google PageSpeed API for mobile and desktop performance analysis and OpenAI API for AI-generated SEO recommendations; implemented report functionality.
- Debugged and tested crawling, configuration and API workflows; deployed on Hostinger.

OJT EXPERIENCE / PROJECT

OJT Trainee – Web Development | YSM Info Solutions

News Clipping Management System for a Municipal Corporation | Core PHP, MySQL, HTML, CSS, JavaScript

- Developed responsive web pages and implemented backend functionality using Core PHP and MySQL database operations.
- Tested and debugged the application; optimized it and applied frontend, backend and database integration.

SELECTED PERSONAL PROJECT

RepoLens – AI-Powered GitHub Repository Analyzer (Personal Full-Stack Project) | Live Demo | Repository

React.js, JavaScript, Node.js, Express.js, MongoDB, GitHub API, OpenAI API, Axios, REST APIs, Git, GitHub, Vercel, Render

- Built a MERN application with a React dashboard and REST API backend that analyzes GitHub repositories: statistics, languages, contributors, activity, README analysis, community, activity and risk scores, and health grading.
- Integrated GitHub API and OpenAI API for AI-generated reviews, summaries, strengths, weaknesses and suggestions; implemented MongoDB analysis history and PDF report export; deployed on Vercel and Render.

Other Projects: Admin Dashboard, Image Management System, Student Registration System.

PUBLISHED PATENT APPLICATION

Computer-implemented system for empowering digitally resilient india by leveraging technology

Indian Patent Application (Published, not granted) | Pub. No. IN202621024900 A1 | App. No. 202621024900 | Filed: 02-03-2026 | Published: 24-04-2026 | Role: Applicant and Co-Inventor

Co-inventor of a published patent application proposing a future-ready secure digital identity framework integrating AI-driven multimodal biometric verification and presentation attack detection, permissioned blockchain-based identity lifecycle management, post-quantum cryptography, and privacy-preserving selective disclosure using zero-knowledge proofs.

PUBLICATION

Navigating interoperability in block chain-integrated electronic health records: Challenges, benchmarks, and evaluation perspectives

Scienxt Journal of Computer Science and Information Technology | ISSN 2583-9209 | Vol. 4, Issue 2 | DOI: 10.5281/zenodo.21128041 | Certificate Ref: C37/SJ001/2026

EDUCATION & LANGUAGES

M.Sc. Computer Science – K.K. Wagh ACS & CS College, Nashik | 2024–2026 | CGPA: 8.69
Bachelor of Computer Science – K.K. Wagh Arts, Commerce & Science College, Pimpalgaon (B) | 2021–2024 | CGPA: 8.64
Languages: English (Fluent), Hindi, Marathi
